

53 Shades of RED

How to place compliant radio equipment on the European market

Closing summary, November 2015

Nick Hooper, RTTE CA/ REDCA Chair

www.redca.eu

nick.hooper@ul.com

Today we:

“set the scene in the first Session”

Introduction to the RED, the main elements

The EU Mandate to ETSI M-536

Market Surveillance

CEPT/ECC-ETSI Co-operation process

And:

“looked at some of the changes to ETSI Standards in Sessions 2 and 3”

EG 203 336: A Technical Guide for the RED

Radio equipment operating below 9kHz

Receiver parameters for SRD such as EN 300 220*

“looked at some of the changes to ETSI Standards in Sessions 2 and 3” continued..

Antenna Performance

25 Shades of Mobile Standards under the RED

Changes for 2.4 and 5 GHz equipment

Finally:

“Outlined Future Challenges in session 4”

Harmonised EMC Standards and the RED

Software in Radios and SDR

TC Safety and ERM TG17

RED ATC Radar Harmonised Standards

If you have learnt something new from the subjects covered today, great!

If you feel you can contribute to the Standards for the RED, consider joining ETSI and the Working Groups to add your voice and knowledge.

We **are** running out of time... to develop, agree (vote) and publish these standards, and get them listed in a new OJEU for the RED

Penultimate slide!

The slides from today are free to distribute;

A show of hands, is there interest to run another, more detailed workshop in 2016?

Again, a show of hands, is there interest to run another, more detailed workshop in 2017?

For the members of the RTTE CA / REDCA who registered, there will be coaches outside the lobby to go back to the airport and meeting hotel.

On behalf of the organising committee
I would like to thank:

The EU Commission,

The National Authorities who have presented and
those who have attended

ETSI , for the venue and especially Emmanuelle for
her efforts in organising the organising committee!

and very importantly, the ETSI members who freely
gave their time to prepare and present today

and finally thank **you** for taking an interest in today!
